

ASSOCIATION FOR THE STUDY OF OBESITY  
COLLABORATING CENTRE FOR OBESITY MANAGEMENT

## ASO Collaborating Centres for Obesity Management: Adult (COMs) Network

**Centre:** King's College Hospital NHS Foundation Trust (King's College Hospital and Princess Royal University Hospital Tier 4 Adult Obesity Services)

**Contact:** Dr Georgios K. Dimitriadis

We would like to take this opportunity to thank you for submitting an application for your centre to become an ASO accredited Collaborating Centre for Obesity Management (COM).

Under the ASO UK Adult COMs scheme, obesity management centres (Tier 2, Tier 3 and Tier 4 adult obesity services) deliver services across a range of NHS and non NHS settings in accordance with accepted evidence-based NICE practice guidelines, with applying centres assessed by the ASO Trustees. The Trustees have reviewed your centre and are pleased to confirm that your application was successful. Your centre has been granted ASO COM status for the three-year period **1<sup>st</sup> February 2020 to 1<sup>st</sup> February 2023**.

Your centre will therefore be recognised by ASO as an obesity management centre in the UK throughout that period. The ASO COM network brings together accredited centres throughout the UK and as a member of this network, you (and your centre) will have the opportunity to contribute to forthcoming ASO events and projects. One of the main goals of the COMs network is to provide opportunities for networking and sharing practice with the aim of working towards improving the management of adults with obesity.

We will send further information in due course, and look forward to working with you to develop the ASO COM network and its important actions in the coming years.

Yours sincerely

A handwritten signature in black ink, appearing to read "M. Bryant", is written over a light blue circular watermark.

Dr Maria Bryant

Chair of the ASO
